Dear Wisconsin Fire Departments,

The Wisconsin Smoke Alarm Fire Education (WisSAFE) Coalition is pleased to announce the 2016 second round of 5,000 free smoke alarms offered to Wisconsin Fire Departments to install in their communities. Please help continue to make this program a success with your participation and adherence to the program requirements.

**To receive free smoke alarms to install in your community please complete the attached fire department participation form and return it to [SmokeAlarms@WisSAFE.com](mailto:SmokeAlarms@WisSAFE.com) or the address listed on the bottom of the form by September 16<sup>th</sup>, 2016.**

WisSAFE and the American Red Cross are committed to making this a permanent program in Wisconsin. Every six months we will be offering free smoke alarms to Wisconsin Departments to install in the communities they serve. The first round of smoke alarms will be offered February 1<sup>st</sup> for an April 1<sup>st</sup> delivery and the second round of smoke alarms will be offered August 1<sup>st</sup> for an October 1<sup>st</sup> Delivery.

This coalition has worked hard to streamline the program requirements to make it as easy as possible for fire departments to participate. Please return all completed installation forms promptly and report your progress as soon as possible. All smoke alarm installation forms are entered into a database and the information is used to measure the success of the program and ensure compliance with funding sources.

We are very pleased with the success of this program and appreciate everything Wisconsin fire departments do to protect the lives and property of the inhabitants of Wisconsin from the devastating effects of fire. We welcome your feedback to help us improve this program. For more information and resources go to [www.WisSAFE.com](http://www.WisSAFE.com). Please contact us with any questions. Thank you for your time and attention.

Sincerely,

Michael J. Wos
